THE SPIRITS OF LONDON

THE SPIRITS OF LONDON

London is a city of contrasts, where royal parks meet hidden corners, centuries of history stand beside a constantly evolving skyline.

Inspired by the character of the capital, The Spirits of London is a collection of ten signature cocktails, each celebrating a different side of the city:

Park · Art · Heritage · Music · Fashion · Luxury · Skyline · Time · Multicultural · Cinematic

Each cocktail tells its own story through flavour, atmosphere and imagination, offering our team here at The American Bar the opportunity to share their own interpretation of the London they know and see around them.

Drawing on the city's iconic Underground network, each of the ten cocktails are connected to a different Tube station, creating a journey through the places, culture and stories that shape the capital. From its royal heritage and artistic soul to its vibrant multicultural energy and sense of style, every drink offers a distinct perspective on London.

Ten stations. Ten spirits. Ten stories. One City.

Nothing is quite as it seems. Behind the polished surface, secrets are kept, identities concealed, and every detail deliberate. Cool, composed and impeccably discreet, it takes its inspiration from Vauxhall and the secretive world of British intelligence. Behind every encounter lies another story, where trust is earned, identities are concealed and the truth is seldom what it first appears.
